

Spectra-Physics “Lunch & Learn” Seminar

Very Short Pulse Lasers and their Applications

During this seminar we will focus on **very short pulse, high-bandwidth lasers systems** that are a catalyst for many diverse areas of research.

Join the discussion and learn about the practical application of currently available **short-pulse laser platforms** and explore the exciting roadmap we foresee for research in this regime.

When: Wednesday April 20th
11.30am until 12.30pm followed by buffet lunch

Where: Building 46 Room 4050

Contact: ashley.crane@spectra-physics.com
