

Publishing in Nature Nanotechnology

Dr. Alberto Moscatelli
Senior Editor, Nature Nanotechnology

Dr. Alberto Moscatelli is a Senior Editor at Nature Nanotechnology, based in London. Alberto has a first degree in environmental sciences from the University of Urbino in Italy and a PhD in chemistry from Columbia University. He subsequently worked at Columbia (using paramagnetic resonance and fluorescence spectroscopies to study spin interactions in supramolecular systems) and Carnegie Mellon University (working on fluorescent polymers for organic LEDs). He joined the Nature Publishing Group in October 2010 as a locum manuscript editor at Nature and Nature Materials, before joining Nature Nanotechnology in March 2012.

In this talk he will explain the road to publication in Nature Nanotechnology, from manuscript submission through peer-review and editorial decision making.
