

## Tours, talks, poster session and drinks reception

Hosted by

The Nanoelectronics and Nanotechnology Group

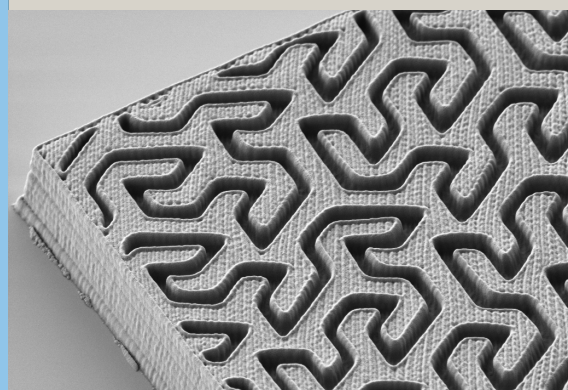

Thursday 30 April 2015

You are invited to attend an afternoon of facilities tours and research presentations hosted by the Nanoelectronics and Nanotechnology Group (led by Prof Hywel Morgan). The event will culminate in a poster session with drinks, canapés and cakes.

This is an excellent opportunity for everyone in the Zepler Institute, and the University more-widely, to find out more about the research carried out in Nano, to view first-hand their world-class cleanroom facilities and labs (Measurement Room and Hybrid Biodevices) and to enjoy posters and discussion over some good food and a glass of something.

We hope you are able to attend.

To help us organise the event, and tour groups in particular, please kindly register your place at the link below.

### Agenda

15:00-16:00

Facilities tours:

Cleanrooms (B53)

Measurement room (B53, Level 4)

Hybrid Biodevices labs (B85)

16:00-17:30

Research presentations:

Prof Hywel Morgan

Prof Kees de Groot

Dr Harold Chong

Dr Martin Charlton

Dr Themis Prodromakis

Prof Shinichi Saito
